

## A letter from the President

In 1981 my father, Karl Ekmark, founded Ekmark Electric promising to deliver “old fashioned quality with old fashioned service.” Since that time, my father’s attitude toward business has become the foundation of Ekmark Electric, growing us into a highly respected electrical contracting firm specializing in energy efficiency projects, design-build construction and client specific maintenance programs.

We understand the key to any successful project begins with experienced and professional personnel and we encourage our employees to participate in continuing education programs and keep up with emerging technologies. Our commitment to the advancement of our employees allows us to provide our clients with the most talented and knowledgeable personnel in the industry.

Today, as President of Ekmark Electric, I am committed to ensuring we provide the same quality and service my father promised in 1981 along with the new services required by advancing technologies and the needs of our clients. We continue to work closely with our clients to offer an approach to electrical contracting services that is specific to their needs.

When my father, Karl Ekmark retired in 2005 he left me with a quote that he considered to be important and of value and I am proud to keep it in my thoughts every day.

“Words can never adequately convey the incredible impact of our attitudes toward life. The longer I live the more convinced I become that life is 10 percent what happens to us and 90 percent how we respond to it.” –Charles R Swindoll

As we enter into our fourth decade as a family owned business, the future looks bright for the employees and clients of Ekmark Electric.

Sincerely,

A handwritten signature in black ink, appearing to read "K. David Ekmark", written in a cursive style.

K. David Ekmark  
President, Ekmark Electric
